MS-III on the Surgical Rotations are reminded that the above outstanding academic opportunities are a required component of their surgical rotation organized for their educational benefit. We hope that using the "web" <http://surgery.usuhs.mil> will continue to expand exchanges and improve our collective contributions to the common mission. Exciting developments continue to be in the new surgical research laboratories, the Simulation Center, documentation of our Military Surgical Heritage and the Endowments/Professorships. We will leave a legacy emphasizing the Department of Surgery support for our School of Medicine and for our University. The Transition continues to go smoothly and we look toward the next 25 years as we reflect with gratitude for all involved for the first 25 years. Your comments and questions are always welcome. Thank you very much and best wishes.
